WHAT IS ECCLESIARED

Ecclesiared is the most important parish and diocesan software in the world. In the last 10 years, Ecclesiared has allowed thousands of priests and parishes to have their parish archives digitized and to benefit from the benefits of the technological age.

DIGITIZE YOUR PARISH ARCHIVE

Do you still waste hours and hours looking for and writing certificates? Do you still care about parish books and the passage of time? Enter the digital age of the Church and preserve the history of your parish for life.

WHAT ECCLESIARED OFFERS

The Diocese, from the Administration user, has access to all the information and all the parish files of all the parishes in its Diocese.

Priests computerize their parish files and in turn, the Diocese obtains all reports from them.

STANDARD DOCUMENTS

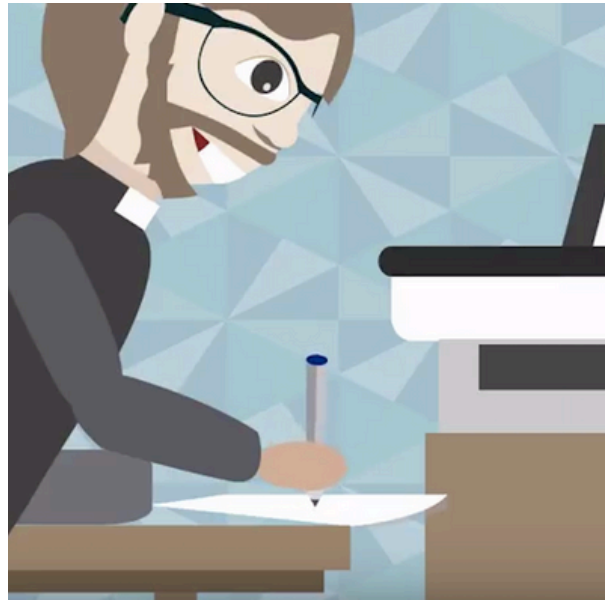

All parishes in the Diocese will have access to an extensive library of official documents. It unifies all the documents of the parishes with the same formats.

PARISHES WITH ECCLESIARED

Thousands of parishes and dioceses around the world have joined the digital age of the Church in the last 10 years thanks to Ecclesiared.

"Internet can offer greater possibilities for encounter and solidarity among all; and this is a good thing, it is a gift from God."

POPE FRANCIS
